For a full synonymy including detailed list of misapplications, see Hay & Wise (1991). The name *Colocasia macrorrhizos* var. *brisbanica* (as 'macrorrhiza') was used in a list published by J.H.Simmonds in *Proc. R. Soc. Queensland* 5: 173-178 (1888), but in which the plant notes were attributed to F.M.Bailey. This name predates *Alocasia macrorrhizos* var. *brisbanensis* F.M.Bailey by a number of years, and appears to be validly published. The type, if one survives, will be from "Woolston Scrub".
